Way Forward for the Portal

- Develop mobile app for CoP
- Wider dissemination of features of Portal
- Improve search functionalities
- Extending social networking presence in Twitter, Facebook etc.
- Put in place a mechanism for robust Content Management and active engagement with visitors.
- Portal to be in line with proposed style guide on presentation of information and use of INTOSAI brand and logo
- Complete migration.
WGEI Webpage

- WGEI page has been migrated with some contents.
- Further content to populate the remaining menus and features required.
- WGEI may designate a Manager for the Webinars and Audit Database.
- Managers responsible to handle these features and also providing a single window contact with KSC Secretariat esp. for Webinars.
- FAQs on the usage of Portal posted in the Portal.
- WGEI may create a Communities of Practice for WG in Portal.
- Distributed credentials. Once the migration is complete, the credentials for Content Management of WGEI page to be passed on to WGEI Secretariat.
- Translation of static pages to be done by vendor through KSC Secretariat.
- Flexible design. Any changes in the webpage design may be intimated.
Requirement from WGEI

- Provide contents to complete migration.
- Details of designated managers for Audit Database, Webinar and Content Management of WGEI webpage.
- Create Communities of Practice for WGEI.
- Use various features like VC for WGEI activities.
- Contribute to Knowledge centre of Portal by providing Guidance, good practices etc.
- Write Blogs on extractive industries.
- Disseminate information on Portal to all members of WGEI and within SAI.
- KSC Secretariat would be interested in feedback on how to improve the functionality and design. Feedback on design and Portal will be appreciated.
THANK YOU
